2	khushi	khushiparmar4037@gmail.com	Trainer	Active
3	dhruvi	dhruvi@gmail.com	Customer	Active
4	amit	amit@gmail.com	Customer	Active
5	trainer	trainer@example.com	Trainer	Active
6	customer	customer@example.com	Customer	Active
7	trainer_alex	alex@fitmaster.ai	Trainer	Active
9	trainer_mike	mike@fitmaster.ai	Trainer	Active

10	john_doe	john@example.com	Customer	Active
11	test_verify_user	N/A	Customer	Active
12	test_customer_user	N/A	Customer	Active
13	test_trainer_user	N/A	Trainer	Active
14	test_admin_user	N/A	Administrator	Active
15	john_trainer	trainer@fitmaster.ai	Trainer	Active
31	test_admin	admin@test.com	Administrator	Active
32	test_trainer	trainer@test.com	Customer	Active
33	test_cust	cust@test.com	Customer	Active
34	athlete	athlete@microsoft.fitmaster.ai	Customer	Active

3. How to Run Server & Reset Passwords

1. Start Development Server:

```
.\venv\Scripts\python.exe manage.py runserver
```

2. Seed / Reset All Default Accounts & Passwords:

```
.\venv\Scripts\python.exe manage.py seed_data
```

3. Change Any Account Password via CLI:

```
.\venv\Scripts\python.exe manage.py changepassword <username>
```

SECURITY NOTICE: Default passwords (admin123, trainer123, customer123) are for local development only. Change all passwords prior to production deployment.
